

# PROJECT: NETFLIX DATA

**By Synøve Almås**

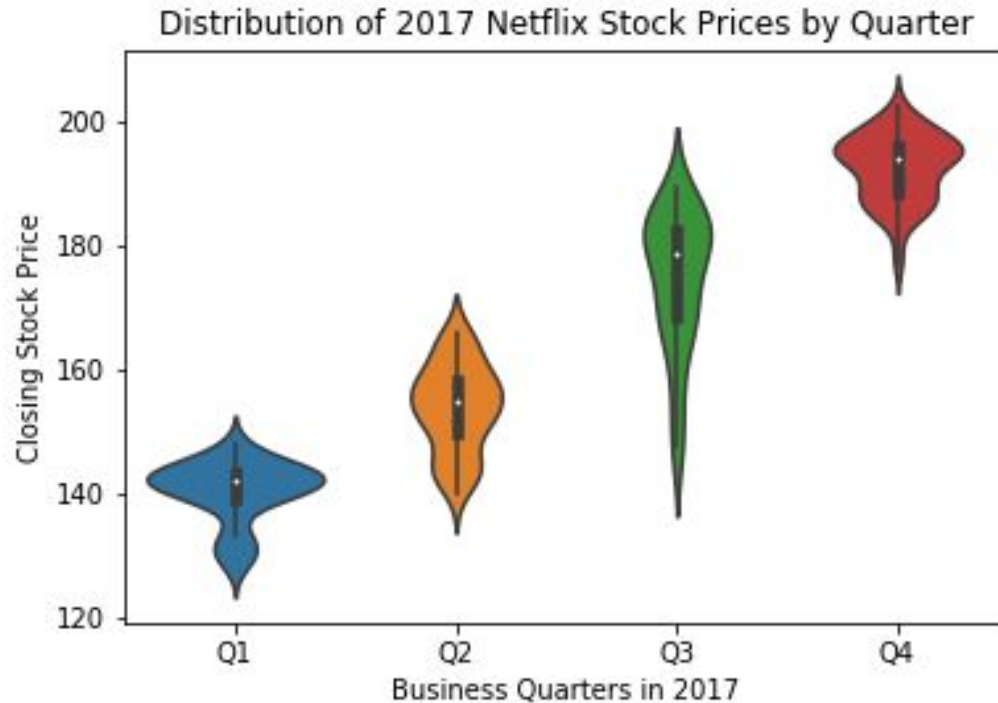

# LIST OF MY VISUALIZATIONS

- Distribution of Netflix stock prices in 2017
- Estimated versus actual earnings per share
- Netflix earnings and revenue the past four quarters
- Netflix stock against the Dow Jones stock in 2017

## MY ROLE

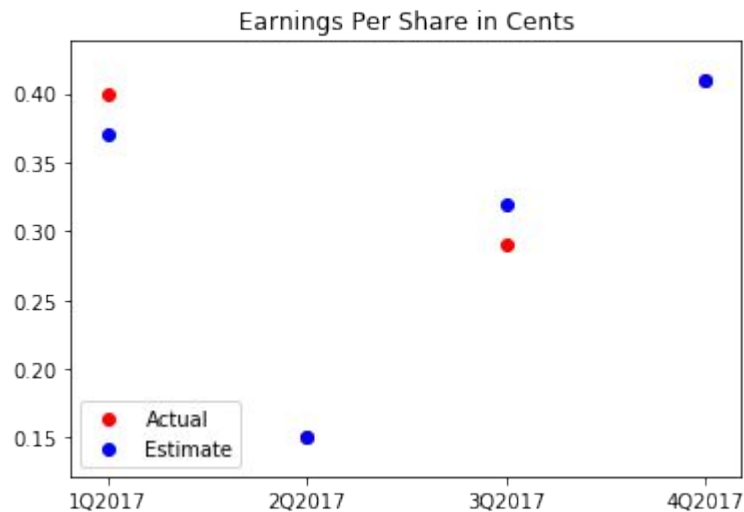

Based on Netflix data, I have analysed the Netflix share and compared it to the Dow Jones stock in order for the Stock Profile to assess the risk of the Netflix stock.

# DISTRIBUTION OF NETFLIX STOCK PRICES IN 2017

# ESTIMATED VERSUS ACTUAL EARNINGS PER SHARE

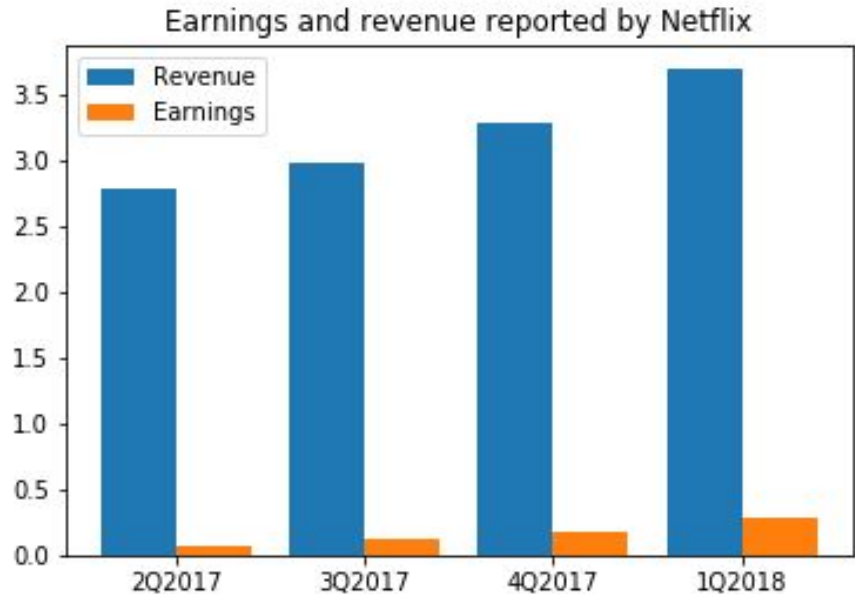

The Netflix shares had its highest EPS in the last quarter of 2017. The estimated earnings was then equal to the actual earnings. The same was true for the EPS in the second quarter of 2017, when the EPS was at its lowest level.

# NETFLIX EARNINGS AND REVENUE THE PAST FOUR QUARTERS

Both revenue and earnings have increased in the past four quarters.

However, revenues continues to be far greater than earnings.
